

Abusing Science: The Case Against Creationism

By Philip Kitcher

MIT Press Ltd, United States, 1983. Paperback. Book Condition: New. Reprint. 226 x 146 mm. Language: English . Brand New Book. Abusing Science is a manual for intellectual self-defense, the most complete available for presenting the case against Creationist pseudo-science. It is also a lucid exposition of the nature and methods of genuine science. The book begins with a concise introduction to evolutionary theory for non-scientists and closes with a rebuttal of the charge that this theory undermines religious and moral values. It will astonish many readers that this case must still be made in the 1980s, but since it must, Philip Kitcher makes it irresistibly and forcefully. Not long ago, a federal court struck down an Arkansas law requiring that scientific Creationism be taught in high school science classes. Contemporary Creationists may have lost one legal battle, but their cause continues to thrive. Their efforts are directed not only at state legislatures but at local school boards and textbook publishers. As Kitcher argues in this rigorous but highly readable book, the integrity of science is under attack. The methods of inquiry used in evolutionary biology are those which are used throughout the sciences. Moreover, modern biology is intertwined with...
