

Power Chord: One Man's Ear-Splitting Quest to Find His Guitar Heroes

By Thomas Scott McKenzie

It Books, United States, 2012. Paperback. Book Condition: New. 201 x 135 mm. Language: English . Brand New Book. When Scott McKenzie was a young man, he thought he saw God . . . The deity was all in black with knee-high silver boots, a patent-leather breastplate, and full face makeup, clutching a beautiful, custom Les Paul guitar. Ace Frehley, lead guitarist for the rock group KISS, wasn't God but hearing his piercing, shrieking, screaming, outrageous guitar solos was a transcendent spiritual experience for a boy from rural Kentucky, making him feel uplifted, a witness to a higher power. Two decades later, a grown-up Scott McKenzie vowed to meet Ace Frehley in the flesh as well as the other gods and demigods who have held divine power over a generation of worshipful metal fans: legendary guitar champions like Glenn Tipton of Judas Priest and Phil Collen of Def Leppard, hallowed names like Steve Vai, Warren DeMartini, and John 5. Power Chord is a chronicle of Scott McKenzie's epic quest to stand in the presence of metal greatness to meet his omnipotent guitar gods face-to-face and get them to divulge their otherworldly secret.

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Ally Reichel**

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You won't feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
