Botanical Name.--Acacia (already dealt with); melanoxydon; this is from two Greek words signifying black wood, and Robert Brown, the botanist, who adopted this designation, simply translated the commonly accepted Australian name. Vernacular Names.--It is called Blackwood on account of the very dark colour of the mature wood. In Captain P. P. King's work, Allan Cunningham refers to it as the Black-hearted Wattle or Native Ash. It is also called Lightwood in Tasmania, Victoria, and southern New South Wales; but the origin of the term, even amongst many people who use it, is not always clear. An explanation often given is that since the great majority of the useful timbers of Australia and Tasmania are heavy, the name is simply to draw attention to its comparative weight. This explanation is, however, untenable. The Blackwood has rather a wide sapwood, up to 4...
