RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 122 pages. Original publisher: Washington, D. C. : The Forum, 1997. OCLC Number: (OCoLC)38918741 Subject: Endocrine glands -- Diseases -- Environmental aspects. Excerpt: . . . capable of regulating minor changes to the endocrine milieu is uncertain. Finally, the data are not available for mixtures of chemicals that may be able to affect endocrine function. At the same time, in the case of environmental estrogens as endocrine disruptors, it is known that competition for binding sites by antiestrogens in the environment may moderate estrogenic effects of some chemicals. Clearly, more research to fill data gaps and remove the uncertainties in these unknowns is needed. c. Conclusions With few exceptions (e. g. , DES), a causal relationship between exposure to a specific environmental agent and an adverse effect on human health operating via an endocrine disruption mechanism has not been established. However, in view of the Agencys concern that certain persistent chemicals might be responsible for some of the recently-reported reproductive, developmental, and carcinogenic effects operating through an endocrine disruption mechanism, new epidemiologic and laboratory testing studies could be undertaken to better define the scope of the...
