# Das Rheingold

By Richard Wagner

Schott Music Dez 2009, 2009. Taschenbuch. Book Condition: Neu. 190x118x20 mm. Neuware - Although 'Rhinegold', like any of the following three parts, is a drama on its own, it reveals its entire meaning only as introduction to the complete work. In 'The Nibelung's Ring', Wagner used his own word creations the principal characteristics of which are effective alliterations. For the first time, this first part of the 'Ring' also contains the 'reminiscence motifs' (it was not until after Wagner's death that Hans von Wolzogen invented the expression of the 'leitmotif' as it is used today). Apart from the libretto, this edition contains introductory commentaries of Kurt Pahlen who also adds information on the compositional structure and context to the musical as well as external and internal dramatic action of the opera. A short synopsis and a brief outline of the genesis bring the work into relation with the composer's entire oeuvre and life, thus offering a comprehensive, richly illustrated introduction. WWV 86 A 304 pp. Deutsch.
